

the freedom to succeed

Efficient. Easy to use. Effortless to support.

Hosted Services

Single-point data entry. Seamless information sharing capabilities. No software to install. Hosted Services connects Ceridian Insync, a powerful HRIS and payroll processing system, with Citrix-technology, a web-enabling interface that eliminates costly MIS investments and the support of client-server software and environment.

With Ceridian Insync, you get all the sophisticated functionality you need to manage critical payroll and Human Resources transactions. From hiring a new

employee through to termination; from entering a large batch of timecards or managing accrued vacation time to processing your payroll, Ceridian Insync can do it all.

By using Citrix-technology, Ceridian Insync moves out of the client-server environment and into the Ceridian hosted environment, now making your payroll/HR data conveniently accessible to you via an Internet browser and connection.

3 Reasons to Choose Hosted Services	How You'll Benefit
Fully-integrated payroll & HR data through the power of Ceridian Insync	<p>Improved data accuracy & reporting capabilities – Reduce redundant data entry procedures and costly keying errors with a single data source accessible by all areas including Payroll, HR & Finance.</p> <p>Single vendor to manage – Eliminate the difficulties associated with managing multiple payroll and HR services vendors.</p>
Ceridian-hosted	<p>Reduced costs – Hosted Services reduces your IT costs by eliminating infrastructure adaptations, software & hardware upgrades and individual licensing fees.</p> <p>Valuable time-savings – Divest your IT employees of labour-intensive software maintenance and database administration responsibilities.</p> <p>Peace of mind – Your data is protected by Ceridian's regularly-scheduled back-ups, application maintenance and disaster-recovery procedures.</p> <p>Expert support – Dedicated solution experts support and maintain the system so you don't have to.</p>
Web-based platform	<p>Convenience – Accessible to authorized users via the Web, your payroll/HR data is available at any time, from anywhere.</p> <p>Secure data – Ceridian Canada is committed to the security of our customers' confidential employee information. As such, we apply strict controls over our private network, 128-bit encryption to all data transfers, and rigorous user security principles.</p>

From measurable operational efficiencies and improved business processes to peace of mind about your data's integrity, Hosted Services will change the way your payroll, HR and IT departments operate.

Connect to success with Ceridian's Hosted Services.
